WORK EXPERIENCE

SyncGlob Private Limited

NOV 2023-PRESENT

Burjeel Health

- Developed web and mobile applications for a healthcare e-commerce platform, including a comprehensive admin panel that enabled administrators to manage orders, products, inventory, users, and healthcare-related operations across the Burjeel ecosystem.
- Built responsive, user-friendly interfaces for both web and mobile platforms, streamlining administrative workflows, improving operational efficiency, and delivering a seamless user experience.

Petvesta

- Built a comprehensive admin panel to manage orders, products, inventories, and users across the Pet Vesta ecosystem.
- Improved operational efficiency for admins by delivering a streamlined and responsive UI.

Construction

- Built an admin panel to manage and track construction workflows across roles such as Estimator, Detailer, Fabshop, Welder, and Field Installer.
- Treamlined project coordination and reduced delays by implementing optimized UI flows and role-based dashboards.

Kojyto

- Developed an online tutorial platform allowing teachers to create question sets, manage students, and conduct tests.
- Improved content delivery performance and ensured smooth navigation across core flows.
